

TECH NEEDS DISCOVERY EVENT

25/09/25 13-17

Space Business Innovation Centre
Noordwijk

Register here

WHAT IS IT?

An interactive event bringing together the **Space, Agri-Food Energy and High Tech** sectors to tackle real-world challenges. You'll co-create solutions, discover new perspectives and build cross-sector partnerships.

WORKSHOPS

We will select **one topic per industry**, previously submitted by you, the participants. Each one will be assigned as a topic for a working group. You'll join a table, roll up your sleeves, and collaborate to unpack the challenge, explore innovative solutions and share fresh perspectives. Afterwards, you present your results on stage.

WHY IT WORKS

The March and June editions of Tech Needs Discovery led to:

- **70+ new cross-sector connections**
- **10+ active follow-ups and collaborations**

Don't miss your chance to co-create the future.

WHO IS IT FOR?

If you're curious, collaborative and eager to work across industries — this is for you.

Startups & SMEs

Seeking use cases, partners, scaling support

Large Enterprises

Scouting innovation and disruptive tech

Public Organisations

Driving impact through policy or procurement

Research Institutes

Translating research into practice

WHY IS IT IMPORTANT FOR YOU?

- 🔍 Understand pressing challenges from other sectors
- 🔗 Explore tech transfer opportunities beyond your domain
- 👥 Work in cross-sector teams to generate fresh ideas
- 🚀 Present your insights and meet potential collaborators
- 🍷 Wrap up with Network & Drinks to follow up on new leads
